COURSE-IN-A-BOX · INSTRUCTOR LICENSE

Teach PHP and WordPress Development

A ready-to-deliver course that takes PHP developers from a local WordPress 7.1 site to custom themes, a plugin with blocks, REST endpoints and tests, and a launched site for one bookstore, Pages & Co.

`18 × 3 h = 54 h` `Part 1: 8 × 3 h = 24 h` `216 self-checks` `566 slides` `78 lab pairs`

WHO IT'S FOR

Learners: PHP developers moving into WordPress, front-end developers and site builders ready to write themes and plugins.
Prerequisites: PHP Foundations and MySQL Foundations or equivalent experience (PHP, SQL basics), plus HTML and CSS.
Programs: trainers, bootcamps, colleges, corporate L&D, workforce programs; weekly, twice weekly or intensive.

TWO WAYS TO RUN IT

FULL PROGRAM · 18 SESSIONS · 54 H

Part 1 plus Part 2, Plugins to Launch: a plugin, post types, security, settings, tables, blocks, Interactivity API, REST, cron, tests, deployment; a final project.

PART 1 ONLY · 8 SESSIONS · 24 H

Themes: Docker and WP-CLI, the content model, the database and hooks, block, child and classic themes. Ends in a theme project and a scored assessment.

WHAT LEARNERS CAN DO AFTER IT

- Run a WordPress 7.1 site in Docker; work with WP-CLI, debug.log and hooks
- Build block themes with theme.json and patterns, child themes and classic themes (Part 1)
- Write secure plugins: post types, settings, tables, static, dynamic and interactive blocks
- Expose REST endpoints, schedule cron, test, profile, package and deploy a site

WHAT YOU GET

FOR EVERY SESSION (×18)

- **Facilitator guide:** 0:00–3:00 agenda, scripted demos with real output, what to cut
- **Workbook** with a 12-item self-check; **answer key**; **slide deck**; new **labs**

ACROSS THE KIT

- Print-ready books; 78 lab pairs + 33 find-the-bug handouts, all checked on WordPress 7.1 by one command
- Setup guide, Docker project, Part 2 starting site, two checkpoints, **Part 1 assessment**, **final project** with rubrics and a reference solution, syllabus

WHY INSTRUCTORS CHOOSE IT

One fictional bookstore from first install to launch (no privacy risk) · **honest pacing:** demo, guided lab and project start in the room, the rest at home · **every result is real:** all code was run on WordPress 7.1.3 and PHP 8.5 · **security and the WordPress coding standards from day one** · **free tools**: Docker, WP-CLI, Node and Composer on any OS.

LICENSE & PRICING

Full program: Solo [$1,097] one instructor · **Organization** [$3,297] all instructors at one org · **White-label** [$6,597] your branding · updates [$219/yr]. **Part 1 only:** [$547] · [$1,647] · [$3,297] · [$109/yr]; upgrade for the difference. One-time fees, unlimited students.

Suggested anchors, set at point of sale. Practice data included; WordPress, PHP, MySQL, Docker, Node and Composer are free and installed by each learner; terms in `LICENSE.md`. Ask for a sample session: rays-home.netlify.app/contact.

A complete, ready-to-teach WordPress developer curriculum, from local site to launch.
